Method of enabling secure transfer of a package of information

Dear Sirs,

Regarding:

EP1280295A1

AU2004200319A1

US20050169479A1

CA2456598

Inventor: Göran Ekström  
(SE)

And accordingly;

The invention, as described, would probably be questioned  
as been described in prior art.

1. A public key infrastructure (PKI) is an arrangement  
that provides for trusted third party vetting, and  
vouching for, user identities.

Source: wikipedia.org

2. Also the secure information and payment technology  
(SIPT), as described in:

SE-patent No: 525 418 C2

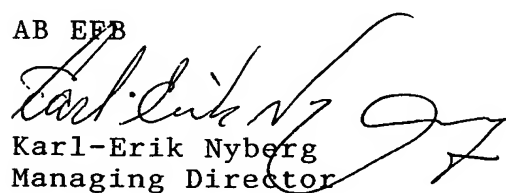

US-patent No: 7,006,998 B2

And accordingly;

Would not be excluded as of interest in following examinations.

Yours sincerely,

AB EFB

Karl-Erik Nyberg  
Managing Director
